## Paint represents the standard in roadmarking material.

Lafrentz is a highly experienced roadway line painter, and is proud to be the largest painting operation in Alberta and British Columbia, with a large private fleet of paint trucks and support equipment at our disposal.

### HIGHWAY LINE PAINTING

Lafrentz specializes in highway application. Our fleet of paint trucks can apply all available paint types, to exacting specifications. All trucks include video guidance, and many others include computerized measurement systems and sophisticated instrumentation packages.

### AIRPORT MARKINGS

Airports require distinct markings for airside visibility, functionality and safety. Lafrentz works with airports across Western Canada to provide airside and ground-side marking requirements.

### LINE REMOVAL

As roadways change and evolve with roadway twinning projects, line removal is necessary to make way for new markings. Lafrentz has the right sized equipment to offer line removal for projects ranging from a single arrow to many kilometers of roadway.

SOME OF THE BENEFITS OF USING LAFRENTZ PAINT SERVICES FOR YOUR NEXT ROAD MARKING PROJECT INCLUDE:

- + Fast, cost-effective application
- + Consistently high quality results
- + Experienced, knowledgeable, trained operators

## THE LAFRENTZ ADVANTAGE

Lafrentz prides itself on its service.

We have built our business on hard work and professionalism, and we highly value our customers' time, budget and project needs. With our large fleet of paint trucks and equipment, we're able to hit the ground running and respond quickly to last-minute or urgent customer requests.

Lafrentz has over 35 years of road marking experience, and a team of dedicated, highly-skilled employees. We operate with modern, advanced equipment, which provides more up-time and a better end-result for our customers in a shorter timeframe.

“Lafrentz applies approximately 3,000,000 liters of paint annually. Once laid, that's equal to painting over two times around the earth! ”
